

Dear to the Hearts of the Women.
DR. T. FELIX GOURAUD'S
Oriental Cream
OR MAGICAL BEAUTIFIER
An Indispensable and Necessary
Article for Particular Women
who Desire to Retain a
Youthful Appearance.

Every woman owes it to herself and loved ones to retain the charm of youth and beauty as long as possible. For over half a century this article has been used by actresses, singers and women of fashion. It renders the skin like the softness of velvet leaving it clear and pearly white and is highly desirable when preparing for daily or evening attire. As it is a liquid and non-greasy preparation, it remains unnoticed. When attending dances, balls or other entertainments, it prevents a greasy appearance of the complexion caused by the skin becoming heated.

Gouraud's Oriental Cream cures skin diseases and relieves sunburn. Removes tan, freckles, blackheads, moths, patches, rash, prickles and vulgar redness, which every woman desires.

For sale by Druggists and Fancy Goods Dealers.

FORESTRY MEN GUARDING TREES

Report of Superintendent Hosmer Tells of Efforts to Protect.

Interesting work to develop and conserve the natural resources of Hawaii is recorded in a report made to the board of agriculture and forestry yesterday by Ralph S. Hosmer, superintendent of Forestry. In his report, which is for the months of March and April, he says:

Tree Planting.
Following an official call for tenders for planting an area of government land on the Kohala Mountain, above Waimea Village, Kohala, Hawaii, a contract has been entered into with Mr. A. W. Carter. The planting is to be carried out in accordance with a planting plan drawn up by this Division last year. The object is to replace a stand of forest on a section of the Kohala Mountain from which water is obtained for use on the plains below. To attend to the details of this matter and get the work actually started Mr. Haughts went over to Hawaii and was at Waimea during the first ten days of April. The money for this planting comes from a special allotment made from the Conservation fund in 1910.

The other government forest planting project authorized out of this special allotment, the planting of the portion of the Papukea Forest Reserve, Oahu, formerly known as "Water Reserve C" is also progressing favorably. An examination recently made of the trees planted last year showed that approximately 85 per cent of those set out have now reached the height of 3 feet—the height required before the second installment of the contract price could be paid the contractor. This young forest will in a short time now make a marked difference in the appearance of the upper lands at Papukea. It cannot fail to be of benefit to that section of the island in a number of ways.

FOREST FIRES.

On April 1, a forest fire at the head of Manoa Valley gave the staff of the Division of Forestry a brisk fight for a few hours until it was gotten under control. The fire escaped from a Chinese laborer who was burning brush above Mr. James Boyd's place and ran up the steep ridge into a mass of Staghorn fern under an open stand of Koa trees. Fortunately members of the staff with the President of the Board happened to be in Manoa Valley when the fire was discovered, so that no time was lost. Several laborers were secured locally who got the fire under control. Later in the evening, thanks to the courtesy of Sheriff Jarrett, a gang of prisoners was sent up the valley. These men continued to patrol the burned area during the night. It is estimated that the area burned over was between 20 and 25 acres.

On April 28, Mr. Haughts responded to a call that there was a forest fire in the mountains in the Ewa District. This fortunately proved to be a mistake, the reflected light from cane trash fires in a new locality being responsible. But had there really been a fire, the presence on the ground of a member of this staff would have led to prompt action in combating it.

Seed Law.
In accordance with the direction of the Board, the Superintendents of Entomology and Forestry spent some time during April in the preparation of a Pure Seed Law which was passed by the Legislature as Act 107. Copies of this Law have been reprinted for distribution, here and abroad. It is suggested that it would help in its enforcement and tend to prevent the introduction of weeds into Hawaii, if persons ordering seed in quantity were to send copies of this Act with

Sickly Women

Every woman needs a tonic stimulant which will give her the strength to overcome the trials and sickness which only a woman knows.

During the past fifty years Duffy's Pure Malt Whiskey has brought relief and strength to thousands of sickly women. It is important that every woman should use a stimulant that will enrich the blood and strengthen and build up the body.

Duffy's Pure Malt Whiskey

as a renewer of youth and tonic stimulant is one of the greatest strength-givers known to science. It aids in destroying disease, and by its building and healing properties assists in restoring tissues in a gradual, healthy, natural manner, thus keeping the old young in spirits. It is invaluable for overworked men, delicate women and sickly children. It is a wonderful remedy in the prevention and cure of consumption, pneumonia, coughs, colds, malaria, low fevers, stomach troubles and all wasting and weakening conditions, if taken as directed.

Write for free medical booklet containing common sense rules for health and testimonials, and doctor's advice. Sold everywhere.

The Duffy Malt Whiskey Co., Rochester, N. Y. U. S. A.

their order. The Board will be glad to supply copies of the law on request.

Investigation At Koolau.

For some time arrangements have been under way whereby one of the Foresters of the Philippine Bureau of Forestry should visit Hawaii for the purpose of consultation over certain forest problems presented by the death of a portion of the native forest in the District of Koolau, Maui. During May this project has been carried out by the visit of Mr. H. M. Curran of the Philippine staff, who has stopped over between transports on his way back to Manila from the mainland. Temporarily Mr. Curran has been appointed Special Forest Inspector in the Division of Forestry.

The object of Mr. Curran's visit to Hawaii is to assist in working out plans for the replacement of forest on the areas where the old growth has been killed. To this end, he, with the Superintendent of Forestry spent the fortnight from April 18 to the end of the month on Maui. A detailed report of recommendations as to

DRESS IN STYLE

Buy clothing that is known---clothing that is dependable. Be sure to get a make that has a reputation.

This is the most important feature for the man who would dress in style.

This Store handles only the best of everything. Men come here for the first arrivals, and depend on our judgment.

ASSOCIATED OIL SPENDS VAST AMOUNT

BAKERSFIELD, May 29.—The annual report of the Associated oil company, just made public, shows disbursements for the year ending December 31 of \$22,963,155.49, of which \$18,086,447.66 was for merchandise, labor and material, operating and general expenses. The sales and other revenue amounted to \$22,079,639.21 and \$30,477.68 was derived from dividends from other than proprietary companies. The profit and loss statement shows a reduction in the market value of oil on hand at the end of the year of \$329,373.68; an adjustment of claims of prior years' business of \$55,462.17; marine loss in 1909, \$15,559.81; abandoned pipe line surveys, \$8,533.90; and a balance December 31, 1910, of \$4,190,771.50.

The total assets of the Associated oil company are given as \$61,441,809.67. Under the head of capital assets, real estate and leases are valued at \$26,410,143.83; improvements, developments and personal property, \$10,926,967.11; stocks and bonds, \$15,457,310.96.

Among the deferred assets the new Maricopa-Olig pipe line is valued at \$304,048.78 and the steamer W. F. Herrin, now under construction, at \$514,795.86.

For every man, woman and child in this country there is manufactured each week more than twelve pounds of finished iron and steel products.

The great Episcopal cathedral of St. John the Divine in New York was consecrated with imposing services by Bishop Greer, assisted by other prelates. The edifice is only partly completed.

Revenue receipts are more than holding their own, while customs receipts show a decrease.
